MMAPUY Mobile App Workflow Guidelines for Antyodaya Melas under Mukhyamantri Antyodaya Parivar Utthan Yojana (MMAPUY) 2.0

1. Introduction

The MMAPUY Mobile App has been developed to facilitate smooth beneficiary counselling, scheme mapping and enrolment of eligible Antyodaya families during Antyodaya Melas under **Mukhyamantri Antyodaya Parivar Utthan Yojana (MMAPUY) 2.0**.

The application will be used by the designated **Counselling Team Members** during the Melas for recording the outcome of counselling of identified families and linking eligible beneficiaries with appropriate schemes.

The Constituency Nodal Officers shall ensure that all counselling team members are familiar with the application workflow and complete login formalities well before the date of the Mela.

The following family ID shall be used for the testing purposes of the App:

Testing user Family ID - 1CCY7360

2. Availability of MMAPUY Mobile App

The MMAPUY Mobile App is available on both platforms:

- **Android Version**
- **iOS Version**

The counselling team members shall download/install the relevant version of the application on their mobile devices before the Mela.

3. Login Process

1. **Constituency Nodal Officers mobile number** (as per details received from districts) shall be used for the Logins on MMAPUY App.
2. The application login shall be completed through **OTP-based authentication**.
3. Constituency Nodal Officers shall ensure that all team members complete their login process **well in advance before the Mela date** to avoid any last-minute technical issues.
4. Once a user logs into the MMAPUY Mobile App, the session shall remain active and the user shall not be logged out automatically.
5. The user will remain logged in unless he/she specifically selects the **"Logout"** option from the application.

4. Beneficiary Search Workflow

After successful login, the counselling team member shall follow the below process:

Step 1: Search Family

- Search the beneficiary family using the **Family ID** provided in the MMAPUY database.
- Verify the family details displayed on the application.
- Proceed with counselling of the family members regarding available schemes.

5. Action to be Taken After Counselling

After counselling, one of the following two actions shall be taken:

Option 1: Scheme Enrollment Required

If the family/member requires a scheme benefit, the following process shall be followed:

Workflow:

Family Search → Select Family Member → Select Department → Select Relevant Scheme → Confirm Scheme Enrollment

Detailed steps:

1. Select the eligible family member who requires scheme assistance.
2. Select the concerned Department/Organization implementing the scheme.
3. Select the appropriate scheme based on:
    - Family requirement;
    - Eligibility criteria;
    - Skill set/interest of beneficiary; and
    - Scheme suitability.
4. Verify the selected details carefully.
5. Click on **"Confirm Scheme Enrollment"** to complete the process.

After confirmation, the selected scheme shall be mapped against the beneficiary/member.

Option 2: No Scheme Required by Family

If, after counselling, the family does not require any scheme assistance, the following process shall be followed:

Workflow:

Family Search → Select Family Member → Mark "No Scheme Required" → Confirm

Before marking a family as **"No Scheme Required"**, the counselling team member must ensure the following:

- Detailed counselling of all family members has been completed.
- No member of the family requires assistance under any scheme of any Department/Organization.
- All possible livelihood, employment, social security and entitlement-related benefits have been explained to the family.
- The decision of the family has been recorded only after proper verification.

Important:
The option **"No Scheme Required by Family" shall not be selected merely on the basis of one member's requirement/status. It must be ensured that no scheme benefit is required by any other eligible member of the family also.**

6. Role of Constituency Nodal Officers

The Constituency Nodal Officers shall ensure:

1. All counselling team members are provided necessary orientation regarding MMAPUY Mobile App workflow.
2. All team members complete application login before the Mela date.
3. Technical issues, if any, are reported immediately to the Mission Directorate.
4. Counselling teams follow the prescribed workflow strictly.
5. Correct scheme mapping is ensured after proper counselling of beneficiaries.

7. Important Instructions

- The scheme selection must be based on proper counselling and beneficiary suitability.
- Incorrect scheme mapping may adversely affect the beneficiary and delay further processing.
- Counselling teams must ensure accuracy while selecting beneficiary, department and scheme.
- The "No Scheme Required" option must be exercised only after complete verification and counselling.
- All entries made through the application shall be considered as official records of beneficiary interaction during the Antyodaya Mela.
